

# WASTE INDUSTRIES

welcome to a cleaner world!

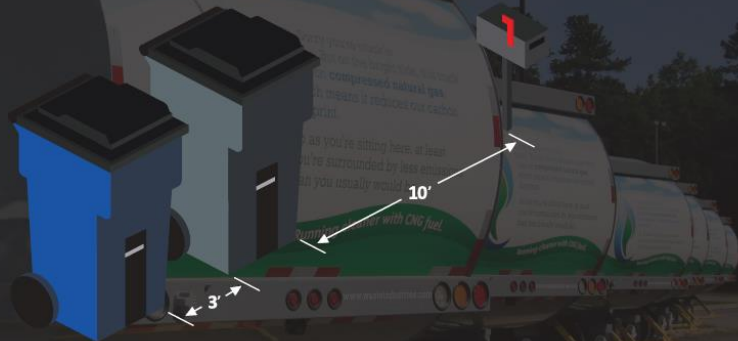

## CONTAINER PLACEMENT UPDATE

You may have noticed a change in your trash collection! Your neighborhood is now being serviced by an **Automated Side Loader** truck. These trucks run quieter, cleaner, and more efficiently than rear loaders, but they also require some changes to how your container should be placed at the curb.

### HOW TO BEST PLACE YOUR CONTAINER

Container placement is essential to automated side loading. Please remember we don't want to damage your property, so be sure to keep your container **AT LEAST 10 feet away from:**

- Mail Boxes
- Vehicles
- Street Lights
- Electrical Posts

The container opening must be facing *into* the street with the handles and wheels facing your home! See below for the best placement of your cart:
